

RyG Real Estate

RyG Real Estate

RyG Real Estate, a new business area within Riva y García's alternative investments group, is working closely with international private and institutional investors looking for real estate opportunities in Spain, as well as with Spanish private investors diversifying their portfolios throughout Europe.

We specialize in investment consultancy for real estate investment and development projects. The team, based in Barcelona (Spain) is now focused in residential development, hotel acquisition and city center residential projects.

We offer the possibility to certain clients of Riva y García to participate in such transactions on a co-investment basis.

The team is led by Ted Sullivan and Jose Espinoza. Both have an extensive international exposure in the US, Europe and Asia, and a combined 55 years real estate experience.
